

Plateforme TXM - Bug # 3139

Statut:	New	Priorité:	Normal
Auteur:	Matthieu Decorde	Catégorie:	Stats / R
Créé :	21/07/2021	Assigné à:	
Mis-à-jour :	07/12/2021	Echéance:	
Sujet:	CA, random R crashes		
Description			
Calling the CA has caused some R crashes in the portal.			
The causes are unidentified, rebooting the portal temporally fix the problem.			
hypothesis			
Since the crash is not systematic, check if R calls are piped and not parallel (which might crash R)
