

Plateforme TXM - Bug # 3467

Statut:	New	Priorité:	Normal
Auteur:	Benedicte Pincemin	Catégorie:	Charts
Créé :	18/10/2023	Assigné à:	
Mis-à-jour :	18/10/2023	Echéance:	
Sujet:	Export, SVG, Progression : file is too large to be edited in InkScape		
Description			
SVG files from AFC or Specificities barplot can be handled in Inkscape. With a standard laptop (32 Go RAM, Intel® Core™ i7-7820HQ CPU @ 2.90GHz × 8) I cannot succeed in writing any text string in the SVG file of a Progression export. The file is large : 4,9 Mo, which may be a reason why the software cannot manage it.
