

Plateforme TXM - Task # 3481

Statut:	Closed	Priorité:	Normal
Auteur:	Matthieu Decorde	Catégorie:	Update
Créé :	27/10/2023	Assigné à:	
Mis-à-jour :	26/01/2024	Echéance:	
Sujet:	Ubuntu 22.04, update dialog is not opened		
Description			
The update dialog is not shown when fetching updates			
Solution 0			
Workaround (worked once for me...): - Open TXM welcome page and accept the certificate - Search for updates Another workaround: use the install third party extension and select the main/0.8.3/beta repository			
Solution 1			
Run TXM with GDK_BACKEND=x11			
Before the TXM 0.8.3 update : Edit the /usr/bin/TXM-0.8.3 file and replace the last line parameters "ENABLE_GTK3= ... UBUNTU_PROXY=0" with "GDK_BACKEND=x11"			
After the TXM 0.8.3 update : nothing to do the /usr/bin/TXM-0.8.3 file is fixed in the setup			
solution 2			
Use a more recent version of Eclipse ? The solution 1 comes from a discussion ~2022: https://github.com/eclipse-platform/eclipse.platform.swt/issues/158			
- h3. Solution ?			
TXM seems stuck at contacting the update site, or is it a problem of window opening ?-			

Historique

- #1 - 27/10/2023 11:03 - Matthieu Decorde
- Description mis à jour
- #2 - 27/10/2023 15:26 - Matthieu Decorde
- % réalisé changé de 0 à 80
- #3 - 27/10/2023 15:28 - Matthieu Decorde
- Description mis à jour
- #4 - 26/01/2024 11:17 - Sebastien Jacquot
- % réalisé changé de 80 à 100
- #5 - 26/01/2024 11:21 - Sebastien Jacquot
- Statut changé de New à Closed
