

Plateforme TXM - Task # 3561

Statut:	New	Priorité:	Normal
Auteur:	Matthieu Decorde	Catégorie:	Export
Créé :	22/12/2023	Assigné à:	
Mis-à-jour :	22/12/2023	Echéance:	
Sujet:	Export, Edition, PDF format		
Description			
Add a new export command to produce one PDF per Text edition. See existing Java tools that can: - convert HTML to PDF using the CSS styling - merge PDFs (or create one PDF with several HTMLs - or create one PDF from a TXM edition made of a single HTML page) See: - Native Java library - Open HTML to PDF: https://github.com/danfickle/openhtmltopdf (flying-saucer + pdfbox) - Pandoc external call (to generate several formats: pdf, odt, docx...) - PandaDoc SDK: https://github.com/PandaDoc/pandadoc-api-java-client
