

Plateforme TXM - Feature # 3562

Statut:	New	Priorité:	Normal
Auteur:	Serge Heiden	Catégorie:	Commands
Créé :	10/01/2024	Assigné à:	
Mis-à-jour :	10/01/2024	Echéance:	
Sujet:	Concordance, enhance pivot properties access		
Description			
Currently pivot properties are displayed and managed through a single interface (column). To help view and manage properties separately we need to enhance the Concordance UI.			
Solution			
- add a way to display several columns for pivot property values (like in the word properties annotation UI with several annotation toolbars and columns in the concordance) - use those columns to help select sort criteria and processing
